# About Us

## Who We Are:

Fixity Green, part of the global Fixity Group with operations in the USA, India, and Mexico, is India's first fully automated, Indian-made PET recycling plant. As a proud member of **MRAI**, we deliver sustainable, technology-driven recycling solutions, transforming the industry with innovation and global expertise. We are also an **EPR** - registered recycler accredited by the **Central Pollution Control Board (CPCB)**.

## Our Vision:

To create a pollution-free world by offering end-to-end recycling solutions and driving the global transition to a circular economy.

## Our Mission:

To drive innovation in waste management and recycling, transforming waste into valuable resources while promoting environmental sustainability.

## Our Impact:

Recycled over

# 1600+ tonnes

of plastic waste, contributing to environmental conservation.

- Prevented significant landfill and ocean pollution through innovative recycling practices.
- Supported sustainable industrial growth with precision consultancy and technology-driven solutions.

# Our Specializations:

- Plastic Recycling
- E-Waste Recycling
- Municipal Solid Waste Management
- Solar Waste Recycling
- Crop Waste to Bio-fertilizer
- Waste-to-Wealth Solution

## *Plastic Recycling with Fixity Green*

### **Why Plastic Recycling Matters:**

Every piece of plastic ever produced still exists in some form today. At Fixity Green, we believe that this shouldn't be our legacy.

### **What We Do:**

We collect, segregate, and recycle plastic waste into high-quality reusable materials like r-PET (Recycled Polyethylene Terephthalate) and other eco-friendly alternatives.

### **Types Of Plastic we Recycle:**

- PET Flakes
- PC Flakes
- PP Flakes
- PVC Flakes
- HDPE Flakes
- LDPE Flakes

# Leading the Future of Circular Innovation

## What Sets Us Apart

### Technology-first Operations

End-to-end digital visibility of waste flows.

### Partnership Models

Strategic collaborations with municipalities, brands, producers, importers and aggregators.

### Circular Economy Champions

Advocating for policy, awareness, and behavioral shifts at scale.

## Government Partnerships & Sustainability Initiatives

### Official MoU Partner with APEDB, Government of Andhra Pradesh

Driving circular economy models and sustainable development initiatives across the state.

### Official Partner with Swachh Andhra Corporation (SBM-G 2.0)

Leading the establishment of Waste-to-Wealth Plastic Waste Management Units (PWMUs) across rural Andhra Pradesh, supporting a Net Zero future.

APCRDA

### Official Recycling Partner – Amaravati Capital Region

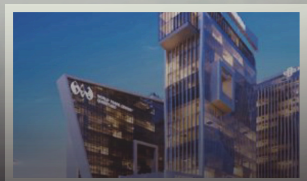

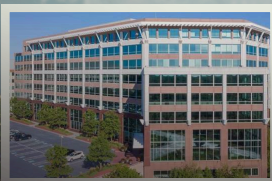

Serving as the Official Recycling Partner for Amaravati Capital Region construction projects, promoting sustainable material recovery.

### Technical Partner – Government of Andhra Pradesh

Establishing a Remote Pilot Training Organization (RPTO) with an Agricultural University to train farmers in agricultural drone operations.

Whether you're a global brand, local body, or grassroots entrepreneur, Fixity Green is your trusted partner in building resilient, tech-driven systems that enable circular growth and lasting impact.
